This tool helps you share your vision with clarity and intentionalisty where others are able to connect with who you are as an individual (CONTAINER) and with what you are sharing (CONTENT).

SHARE YOUR VISION

<u>When to use:</u> When articulating your vision to yourself or to an audience of another person, team, or system

<u>How to use:</u>

Vision sharing involves both Content and Container.

Your CONTENT can be broken down as follows:
1. What are the real **problems** we see in the past and present?
2. What are the brighter **possibilities** for the future we also see? Possibilities can come out from problems!
3. Who are the **people** you want to take care of, and who do you see being impacted?
4. What is a **path, a step by step plan** we lay out as leaders? It will get us from here to there. The path is incomplete because we might never get to the ideal but we will keep moving closer to there.

For how you can work on your container, see Start Having Meaningful Conversations (Card 14).
